Frequently Asked Questions (FAQ)

What are Spine I.D. Labels used for?

Spine I.D. Labels are commonly used for identifying and organizing shelf contents, file systems, library materials, and storage boxes. They're ideal for any vertical surface where clear labeling is required.

Are the labels writable?

Yes, the printed labels have a matte finish, making them easy to write on with pens or markers if needed.

What surfaces do these labels adhere to?

They're designed to stick securely to metal, plastic, wood, and cardboard surfaces. The pressure-sensitive adhesive ensures long-lasting placement.

Are these labels removable?

These labels are easily removed by hand without sticky residue for reuse of ringbinder charts.

Can these be used in archival environments?

Yes! The materials are archival-safe, making them perfect for libraries, records centers, and historical archives where preservation matters.

Are custom printed versions available?

At this time, this product is standardized, but we recommend contacting customer service if you require custom printing options.
